

**CONTAINER CORPORATION OF INDIA LTD.  
INFORMATION UNDER SECTION 4 (1) (b) OF RIGHT TO INFORMATION ACT 2005**

**INTRODUCTION**

Container Corporation of India Ltd (CONCOR), A Govt. of India Enterprise, has taken concrete actions to provide information to the citizens of the country in accordance with the Right to Information Act, 2005 (Act). This section of CONCOR's official website along with other relevant sections contain information as required to be published under Section 4 (1)(b) of the Right to Information Act, 2005.

**Chapter I: Particulars of Organization, Functions and Duties**

**Particulars of Organization**

Container Corporation of India Ltd. (CONCOR) was incorporated in March 1988 under the Companies Act, 1956, as a Central Public Sector Enterprise under the Ministry of Railways. The Company was set up with the prime objective of developing multimodal transport and logistics infrastructure to support country's growing international trade as well as for the transport of domestic cargo in containers by adopting latest technology and practices. The company commenced operations on 1<sup>st</sup> November 1989.

In last 27 years, CONCOR has developed a vast network of container terminals all over the country at prime cargo generation or consumption centers. At present it has a total of 84 locations in India, of which 14 are export & import (EXIM) ,24 domestic container terminals, 37 terminals perform the combined role of domestic as well as international terminals offering requisite multi modal logistics services and 9 strategic tie-ups.

President of India, presently holds 54.80% of the total paid up share capital of Rs. 304.65 crore in the Container Corporation of India Ltd. The share holding pattern of CONCOR as on 31-03-2019 is as under:

**Shareholding Pattern as on 30.09.2019**

**Organizational pattern of CONCOR**

**Functions and Duties**

**MAIN FUNCTIONS**

- a) Set up and manage a network of Inland Container Depots and Container Freight Stations in the country.
- b) Make available the service of various agencies involved under one roof for the benefit of shippers.
- c) Provide close co-ordination among the various agencies.
- d) Reduce the cost to the users by efficient management and faster transport.
- e) Simplify procedures.
- f) Develop a computerized management information system.
- g) Handle domestic containers also wherever feasible.

**CORE BUSINESS**

**CONCOR's** core business is characterized by three distinct activities, that of a carrier, a terminal operator, And a warehouse operator.

**Carrier**

Rail is the mainstay of **CONCOR's** transportation plans & strategy. Majority of **CONCOR** terminals are rail linked, with rail as the main carrier for haulage. Facilities are, however, provided for first and last mile transportation by road also. As rail is price-competitive over long distances, the price advantage can be passed on to clients, thus allowing for flexible and competitive pricing. The rail link also plays a major role in decongesting our ports and the road corridors that lead to these ports.

Though rail is the mainstay of **CONCOR's** transportation plan, some **CONCOR** terminals are exclusively road-fed as well. Road services are mostly in the form of supplementary services to provide the door to door linkages having carried the bulk of long lead by rail. However, where ever it is operationally or economically a superior option, road is used as an alternative to rail as well.

**Terminal and CFS Operator**

**CONCOR** started operations in November 1989 with 7 Inland Container Depots (ICDs). We have since extended the network to a total of 84 terminals. (Terminal map)

**CONCOR's** customs bonded Inland Container depots are **dry ports** in the hinterland, and serve the purpose of bringing all port facilities including Customs clearance to the customer's doorstep. The terminals are almost always linked by rail to the Indian Railway network, unless their size or location dictates that they be linked by road. The rail links enable us to facilitate the moving of large volumes over long distances in the most cost effective manner.

**CONCOR's** terminals provide a spectrum of facilities in terms of warehousing, container parking, repair facilities, and even office complexes. As CFS operator, **CONCOR** adds value to the logistics chain by offering value added services such as

- Transit warehousing for import and export cargo
- Bonded warehousing, enabling importers to store cargo and take partial deliveries, thereby deferring duty payment
- Less than Container Load (LCL) consolidation, and reworking of LCL cargo at nominated hubs • Air cargo clearance using bonded trucking

In the area of domestic business door pick up and door delivery services are the most popular. We also use our terminal network to plan hub and spoke movements that allow single customers to move cargo to multiple locations at a single time, with **CONCOR** taking care of the distribution and re distribution requirements.

The key value we offer is the provision of a single-window facility coordinating with all the different agencies and services involved in the containerized cargo trade, from Customs, Gateway Ports, and Railways, to road hauliers, consolidators, Forwarders, Custom House Agents and shipping lines. To achieve a high degree of customization, we offer packages designed to provide the most cost-effective combination of road and rail. This enables us to offer services which can be individually tailored to every customer's specification, minimizing customers own efforts.

### **Mission and Objectives the mission of the Company is-**

#### **CONCOR - CORPORATE MISSION**

- To join its community partners and stake holders to make CONCOR a Company of outstanding quality.
- To provide responsive, cost effective, efficient and reliable logistics solutions to its customers through synergy with community partners and ensuring profitability and growth.
